SUMMER SESSION 2
August 1 - September 9

RST 010: Healthcare and Ethics (CRN 73863)

80 SocSci Bldg | Tu / Th 10:00-11:40am | Instructor: Katja Herges
This course will explore contemporary ethical issues confronting the practices of medicine and biomedical science. We will examine relevant case studies about euthanasia/assisted suicide, abortion, stem cells and IVF, CRISPR-Cas9 technology and HIV/AIDS trials. Through the course you will become familiar with foundational concepts in healthcare ethics, and consider and debate how these concepts apply to biomedical issues. In addition you will develop your ability to critically evaluate arguments and to write clearly about your own position on complex biomedical ethical issues.

No prerequisites
No required textbooks
